

CERAMICS UK
SUPPORTING MANUFACTURING

TOWARDS NET ZERO

The 'Ceramics UK: Towards Net Zero' sector programme supports ceramic manufacturers in the sharing and adoption of best-practice measures, to continually drive the industry forward towards net-zero emissions by 2050.

As a signatory to this member initiative:

York Handmade Brick Co Ltd

is committed to working collaboratively on the decarbonisation challenge, through a range of energy / carbon reduction activities to help deliver low-carbon ceramic manufacturing in the UK.
